STRAW FREE

500,000,000

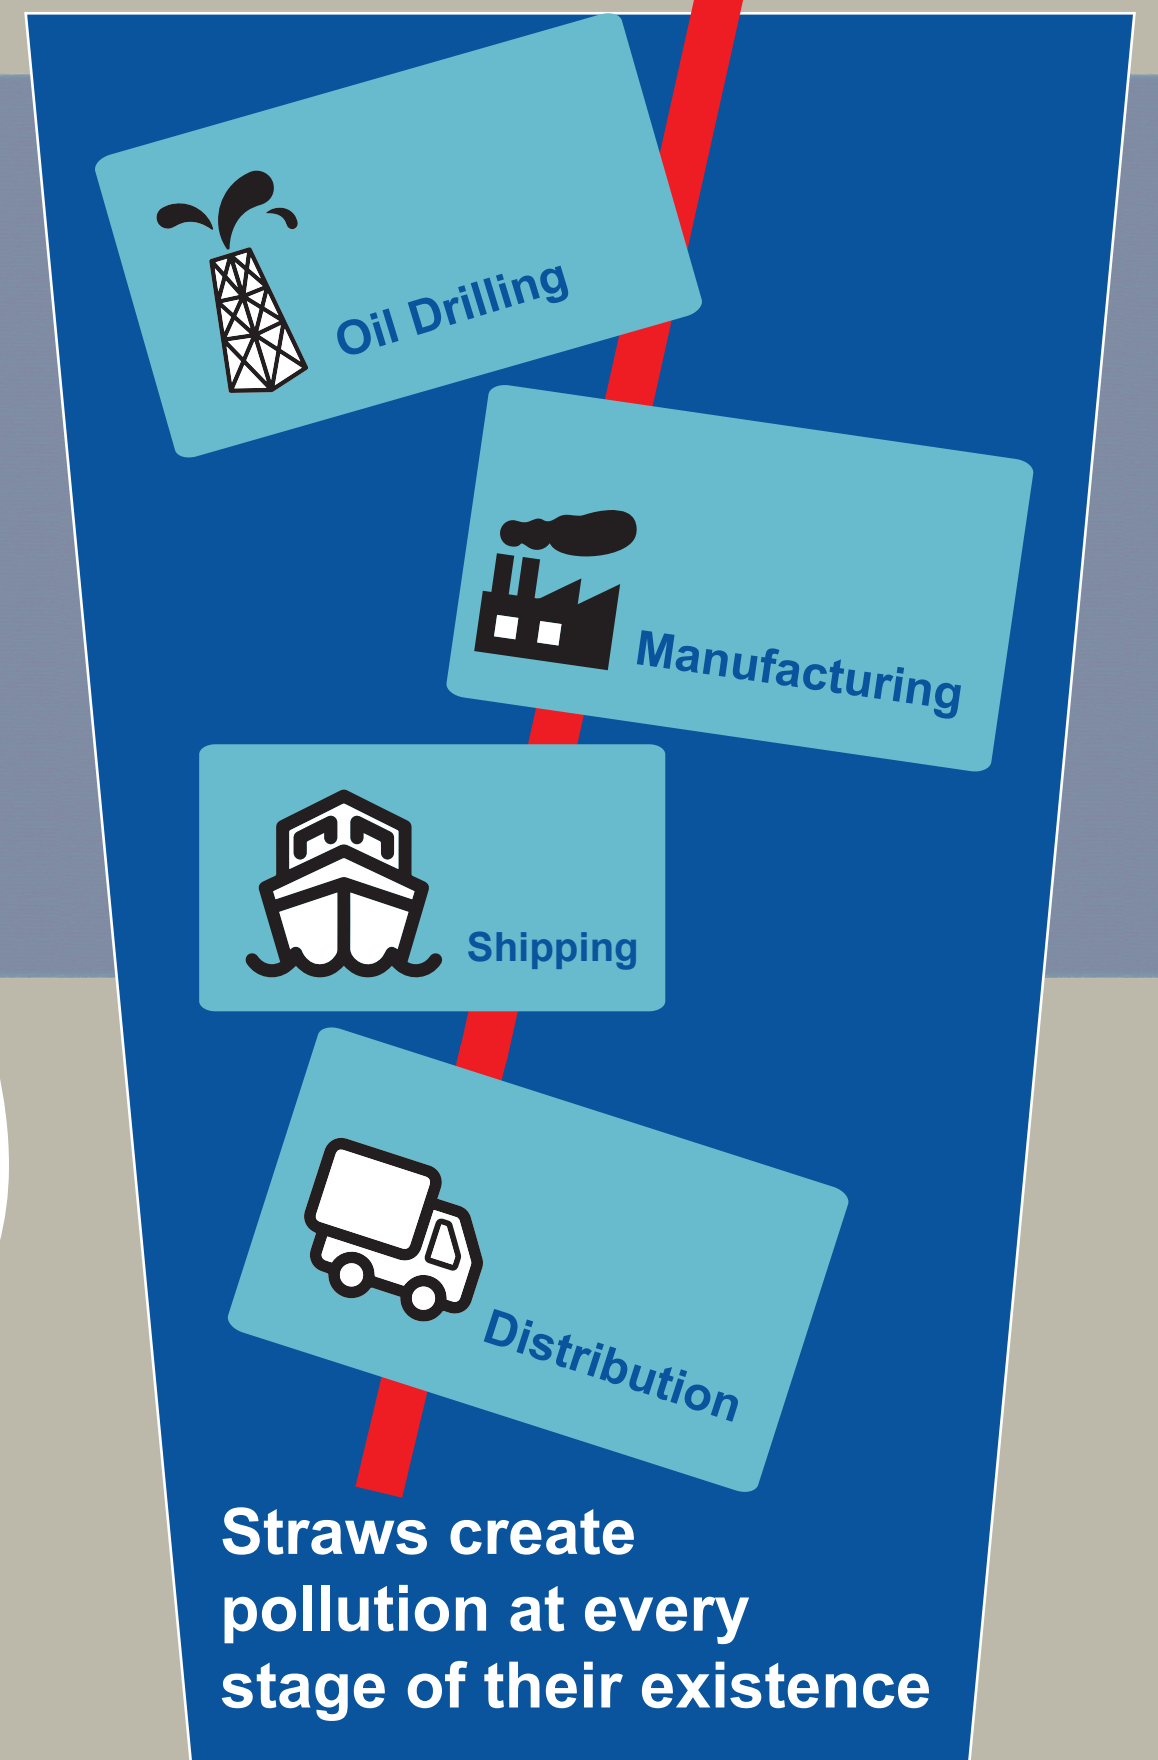

Disposable plastic straws are used in the USA in one Day!

x 127

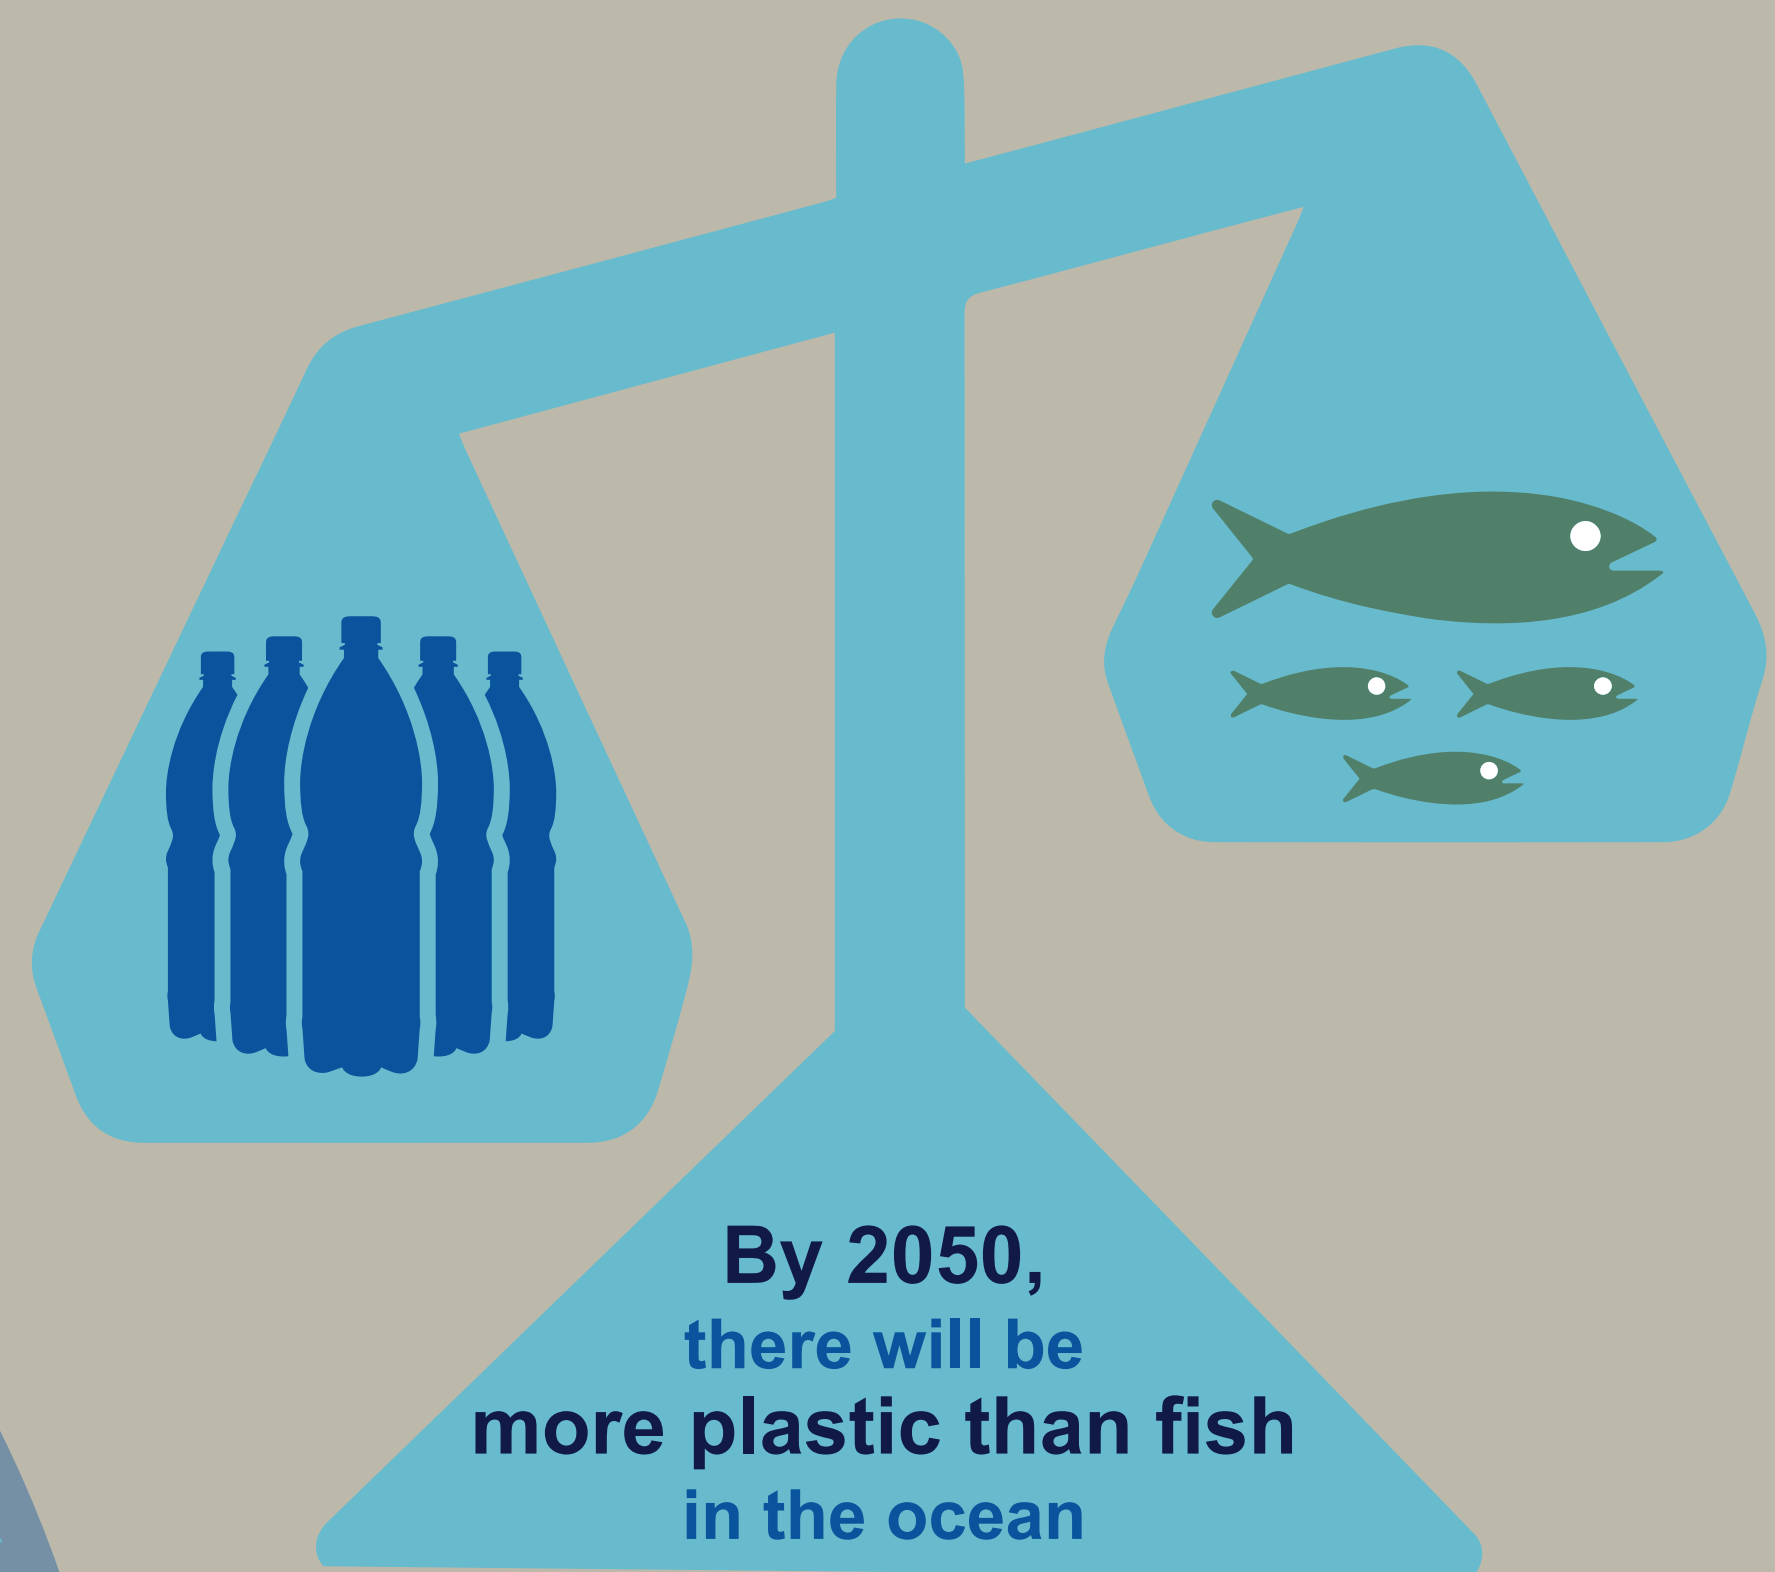

...enough to fill 127 buses.

8% of world oil production is used to manufacture plastics

A turtle was found with over 1000 pieces of plastic in its stomach

Straws are one of the top 10 pieces of garbage polluting the ocean

It's estimated...

One Million Sea Birds

100,000 Marine Mammals

Countless Fish

... are killed by plastic pollution each year

Straws Don't Biodegrade, They Photodegrade

Plastic breaks down into more harmful pieces that lasts 100's of years

Most Straws Are Not Recycled

Straws are plastic #5, which most municipalities do not recycle
